 **On Democracy**

Second Edition

ROBERT A. DAHL; WITH A NEW PREFACE AND TWO NEW CHAPTERS BY IAN SHAPIRO

Written by the preeminent democratic theorist of our time, this book explains the nature, value, and mechanics of democracy. This new edition includes two additional chapters by Ian Shapiro, Dahl's successor as Sterling Professor of Political Science at Yale and a leading contemporary authority on democracy. One chapter deals with the prospects for democracy in light of developments since the advent of the Arab spring in 2010. The other takes up the effects of inequality and money in politics on the quality of democracy, a subject that was of increasing concern to Dahl in his final years.

The Democratic Faith

Essays on Democratic Citizenship

PAUL M. SNIDERMAN

"Democracy is the art and science of running the circus from the monkey cage"—Mencken's judgment and a motto in modern political science. Written with verve, this study reveals the clash of belief systems in the electorate and exposes the fallacy of spotlighting the dangers of mass politics while ignoring those of elite politics.

The Jewish Political Tradition

Volume III: Community

EDITED BY MICHAEL WALZER, MENACHEM LORBERBAUM, AND NOAM J. ZOHAR; COEDITED BY MADELINE KOCHEN

This is the third of four volumes in a series that seeks to connect the political thought of ancient Israel and the Diaspora with the emerging traditions of modern Israel. Coming after volumes on authority and membership, respectively, this one deals with community: the nature of the communal bond, marriage and family, welfare, taxation, and criminal justice.

Money and Government

The Past and Future of Economics

ROBERT SKIDELSKY

Since Adam Smith, classical economics has espoused non-intervention in markets. The Great Depression brought Keynesian economics to the fore; but stagflation in the 1970s brought a return to small-state orthodoxy. This book aims to return money and government to the starring roles that they deserve in the economic drama.

The Logic of Miracles

Making Sense of Rare, Really Rare, and Impossibly Rare Events

LÁSZLÓ MÉRO; TRANSLATED BY MÁRTON MOLDOVÁN;
TRANSLATION EDITED BY DAVID KRAMER

The renowned Hungarian mathematician and psychologist László Méro explains how the wild (*Wildovia*) and the mild (*Mildovia*) worlds coexist and the different laws that apply to each. In doing so, he strikes a balance between economics and complexity theory, proposing to extend the ability of science to quantify the unpredictable, unrepeatable, highly improbable events we commonly call “miracles.”
